## 🪪 PROFILE

Final year student with solid experience in project management at Codex Junior Entreprise. Passionate about web development, 3D component integration and mobile development, I have skills in leadership, communication and project management. My commitment to continuous learning and following the latest trends reinforces my value to future projects and organizations.

## 🎓 EDUCATION

**Licensed in Computer Science**
Higher Institute of computer science
09/2021 – present | Ariana, Tunisia

**Baccalaureate in Computer Science**
*Lycée Mourouj 1*
09/2017 – 06/2021 | Ben Arous, Tunisia

## 🧩 SKILLS

**Programming languages** (Python-JS/TS-C/C#-Java-SQL-PHP)

**Frameworks/Libraries** (ReactJS-NextJS-NestJS-Express-Prisma-Django-Springboot-Angular)

**Project Management** (scrum - web hosting)

**CMS** (Wordpress)

**Mobile** (Android studio)

## 💼 PROFESSIONAL EXPERIENCE

**Algorithms and python tutor**
*Club Jeune Science*
10/2021 – 04/2022 | Cite Khadhra, Tunisia
As an Algorithms and Python tutor for 9-17 years olds, I guided young people into the world of programming, making the concepts accessible and stimulating. My role was to encourage their creativity while strengthening their computing skills.

**Intern**
*Archimed MEA*
07/2023 – 08/2023 | Ariana, Tunisia
During my internship, I gained experience in C#/.NET development, particularly in the creation of desktop and console applications. I have also learned to manipulate XML files and Excel, thus strengthening my skills in programming and data manipulation.

## 🏢 ORGANISATIONS

**Codex Junior Entreprise**
*Member and Responsable Projet*
09/2022 – present | Ariana, Tunisia
As a member of the development team in last year, I actively contributed to frontend projects using ReactJS, HTML, CSS, JavaScript, and Wordpress. My role as "Responsible for Project Missions" allowed me to acquire knowledge of project management.
In my current position, I have gained significant experience in full-stack development, in project management, as well as website hosting
. I directed groups of 3 to 5 members in 6 projects up till now, strengthening my skills in team management.

## 🌐 PROJECTS

**FORMINI.TN**
11/2022 – 12/2022
training plateform developped with HTML,CSS,JS,PHP which gives the user the ability to see and register to many affiliated trainings in multiple fields.

**Taraji Club**
01/2023
Simulaton de jeu de roulettes avec reactjs,bootstrap css

**Paradice Intern Management**
08/2023 – present
As a scrum master, I led the team throughout by actively contributing to its development. I have worked on various modules of the application, JWT authentication with NestJS integration of the API in the frontend. In addition, I ensured installing this project on a LINUX VPS and the testing phase which guaranteed the availability and optimal performance of the application.

**E-Commerce Website**
09/2023
Wordpress e-commerce website for the sale of clothing with Woo commerce and Elementor

**XCEED.TRAINING**
10/2023
Wordpress Website which presents a fitness coach and their services with the ability to contact the admin.
